

**The new way of accounting,
adjusted to your wishes.**

Flexible accounting

Accountnet Online is a new way of accounting at a low fixed price per month. Where and whenever you wish. Fast, user friendly and well safeguarded. You don't buy any software, you don't pay for updates. For your questions we have a special website 24 hours a day 7 days a week at your disposal and of course you can always call us. Also your own accountant or an accountant from Accountnet is there to help you, even on a distance through internet.

Your own accountant can work (if you wish) from his office or house, without disturbing you at your work.

This is flexible accounting

You are flexible in the costs you pay for your accounting. You decide if you do all the accounting work yourself, or we do everything for you, or you do part of the accounting work and we do the rest. During your holiday or in case of illness we do your accounting work, and later on you take over again. You can have a look at your administration or do the accounting everywhere in the world where you have an internet connection. Your branches in other countries can do their accounting, while you see the results immediately. You will get on every moment of the day, all the information you want, including the balance sheet and the profit- and loss account. Your administration is always in accordance with the local legal and fiscal demands. Accountnet works in almost every language you can think off, like English, Dutch, Spanish, French, German, Italian, Portuguese, Norwegian, Bahasa Indonesia, Chinese and many other languages. All information, invoices, forms are adjustable. Invoices can be printed in the language of your client; your clients from other countries will get invoices in their own language.

If that's not flexible

By the way: Accountnet is powered by SQL Ledger the largest online accounting system in the world with hundreds of thousands of users in many countries.

What is Accountnet Online?

Accountnet Online is a subscription to an online accounting system adapted for the European market. You pay a low fee per month; receive your login information and work in future online.

Through a secured website you will work on our own internet servers situated in the TMD datacenters in Chicago, USA. These ultra modern and best safeguarded data centers are responsible for the maintenance of our servers and performs a daily back-up of our data files. In these data centers are also situated the servers form companies like Price Waterhouse Coopers, and many other big companies.

Safer working on internet is not possible. If you have questions you can use our online help functions and our online manual, or you phone us or your own accountant.

What can I do with Accountnet Online?

With Accountnet Online you do your accounting work on the internet. That can be a simple administration with cash and banks, sales and purchases, but it can also be a comprehensive system with invoicing, stock, order administration, billing, project administration, assembly, more warehouses, foreign exchange, etcetera.

Every moment of the day you know the results of your business, and without any delay you can look at your sales, purchases, results per department, foreign subsidiaries, taxes payable etc. With one click of your mouse you will get the balance sheet and the profit- and loss account.

From now on you don't have to wait for your accountant.

Do you have tomorrow morning a meeting with your banker, no problem, print your information now and give it to him tomorrow during the meeting.

Accounting with Accountnet Online

- secured internet site
- automatic daily backups to safeguard your administration
 - fast, clear input screens
 - works together with your accountant
 - no investment, but subscription
 - no costs for updates or maintenance
- full backup through internet and by phone
 - flexible to work with
 - all information at your disposal
- you decide what you do, when and where

Want to do everything by yourself?

Perfect, and if there is something you do not understand, you ask us or your accountant. In case of holidays or illness, we will help you.

Want to do part of the work?

Fine, for instance you do the input of the sales invoices, cash and banks and the purchase invoices and we or your accountant will do the amortization, bookings of the salaries and other more difficult bookings and, if you wish, also the tax declarations and the preparation of the yearly work.

Don't want to do the bookkeeping?

No problem, you deliver the paperwork at our office or the office of your accountant and we take care of everything. Your advantage will be, that you can see from anywhere in the world how your business is running, you still can have all information at the moment you need it, without waiting for us to prepare your reports.

My own accountant?

Satisfied about your accountant? Perfect, keep it this way, because a good accountant is very important for your business. Your accountant can (if you wish) look over your shoulder and can audit your administration or assist you with good advises about your business. If you give your approval your accountant can login under your user name, or even better he can get a separate login. You can agree with your accountant what you will do, and what he or she will do. It is possible to do both bookings in the system, or the accountant can only look into your figures....it's your decision! Together you can work in your administration from different locations.

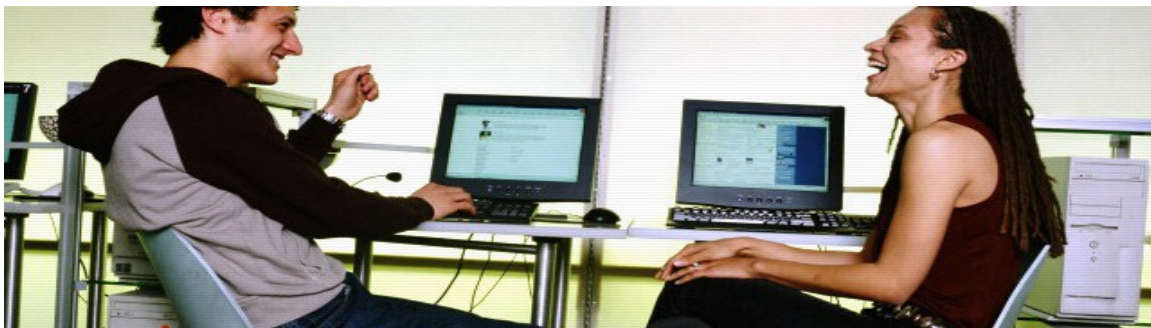

An other accountant?

It is possible that you are not happy with the services of your accountant now.

In that situation Accountnet can help you by introducing a trustworthy and professional accountant, which is working for or connected to Accountnet.

As you may know Accountnet is a network of accountants, tax consultants, business lawyers and management consultants, who all work with the same internet software.

So, if you wish you can make the step to the most flexible accounting system there is today, and also appoint a new professional accountant. We will solve your existing problems and deliver you a good and reliable accounting system for the future.

We will always help you

Not only will we solve your questions of today, but we will help you also with the delay you may have at this moment in your administration, the layout of your accounting system, or other wishes you may have.

Other forms, your own logo on the invoices, special reports, you name it.....we will always help you!

Can I try Accountnet?

Of course. On www.accountnet.info you can ask for a free test account.

Try Accountnet Online and discover the possibilities. Speak with your accountant about the possibilities of internet accounting with Accountnet Online.

We are ready to demonstrate your accountant or banker this new system.

If you want to be flexible in accounting, then you don't want to miss this opportunity.
